

Time period	Amount of funding received	Amount spent	How the money has been/will be spent	Effect on pupils' PE and sport participation and attainment	How we will make sure/have made sure the improvements are sustainable
March 2016 - April 2017	£9803 + £4174 surplus from 15/16	£5475 + £1140	<p>The money has been spent on a sports coach from Steps2Sport who supported in PE lessons 2 afternoons a week until February half term and then 1 afternoon a week following that. This was due to a need to review our spending of the Sports Premium funding following a change in headteacher.</p> <p>This was initially for Reception and Year 1 teachers, with the emphasis being on planning progression throughout a unit. The coach has then support Year 3, 4 and 6 teachers as well. The CT's teach the lesson with the sports coach supporting the delivery and providing ideas and expertise for future lessons.</p>	<p>Children have increased participation as they want to take part in PE lessons as they are more challenging and suited to their abilities. They also have increased attainment as they make clear progress through the unit.</p>	<p>These improvements will be sustainable as the staff are more confident in the future at planning lessons with clear progression.</p>
			<p>The sports coach has also continued to run after-school clubs. These are paid for in part by the parents and in part by sports premium.</p>	<p>We have already seen a huge increase in participation, with waiting lists for clubs, and anticipate that this will continue.</p>	<p>As this is paid for in part by the parents, this will be sustainable in the future as they are already used to paying.</p>
			<p>£606 + £1594</p> <p>Small Heath - Central School Sports Partnership. This entitles us to:-</p> <p>Access to Top Up swimming. We can select up to 15 pupils in year 5 or 15 pupils in year 2 who are unable to swim 25m (or require extra support) for a 4 week intensive swimming block over the course of 4 weeks.</p> <p>Membership to the Youth Sport Trust: This provides us with additional resources and CPD courses, all of which are coordinated through the School Games Organiser (SGO). Courses include Active Literacy and Active Numeracy plus several other relevant courses.</p>	<p>This means that 15 more children will be able to swim 25metres.</p> <p>These courses provide training and therefore further expertise to our staff in their delivery of PE.</p>	<p>This would not be sustainable without the extra funding.</p> <p>The expertise which the staff have obtained will be sustained and passed on to other staff.</p>

		<p>Play Leader Programme: Opportunity to send 12 pupils in years 5/6 to train to become play leaders.</p> <p>Year 1 and Year 2 Multiskills Festival -This competition enabled us to send all of our pupils in year 1 and 2 over 2 days.</p>	<p>This has had a huge impact on the children who are leaders and their engagement, as well as that of the children they are encouraging to play games at break and lunchtimes.</p> <p>The children loved this competition and it was an opportunity for the year groups who do not usually get the chance to compete.</p>	<p>Now we have the resources, we could train the children internally if the need arose in order to continue the program.</p> <p>We could potentially organise something like this in our school and invite others to it, but it would not be possible for it to be on such a large scale.</p>
£1440	<p>Bearwood Creek Adventure Centre - We have begun to take all of Year 5 here for a day so that they are able to experience outdoor activities which is part of the NC requirement. The Sports Premium money means that we are able to subsidise the day and so the children can pay £10 for an experience which should cost £25.</p>	<p>This means that all of the children are given the opportunity to experience outdoor activities which they do not normally have the chance to experience. They can then be inspired to carry these on outside of school now or in the future.</p> <p>It also has massive benefit in drawing out teamwork, confidence and perseverance in the children as they experience new things.</p>	<p>As the children contribute to the payment, we could still afford part of the experience if the funding was no longer available. It is now ingrained in the school calendar and so the trip would continue.</p>	
£51.79	<p>Maudesport trainer cricket balls</p>	<p>This shows the children that we are serious about improving them as cricketers and are taking an interest in what they are interested in. It also means that when we attend competitions, we are more likely to do well which in turn</p>	<p>Using the cricket training balls as opposed to tennis balls is more sustainable as they are less likely to get lost.</p>	

				causes them to aspire to greater achievements.	
		£50.99	Football kit	The kit gives them a sense of pride in their school and more of a team spirit.	We will continue to enter competitions, as entering and being competitive raises our children's standards as they are being challenged.
		£30.00	Contribution to the Greet Mini-League for medals and certificates.	This has always been a popular part of our school sports calendar, with upwards of 20 children trying out for the team each year. It is something the school can unite around as scores are announced and the team celebrated.	We have always entered the Greet football league and so this will continue to be a priority regardless of funding.
		£2050	Coaches to Moseley School to use their facilities for Year 4 (summer term) and Year 5 (Autumn term) PE lessons. This was to facilitate every year group being able to use a space for PE lessons during the week and to extend the time during which these children would be active.	Children were exposed to better facilities and more space. The greater length of time meant that children had better quality learning and made more progress.	Unfortunately, this was not sustainable as the cost of the transport outweighed the benefit which the children were receiving from the experience.
		£750	As we are attending more competitions this term, coaches to these will also be paid for from the sports premium.	We have already seen a huge increase in pupil engagement and participation, with 25 trying out for the football team, 30 for the netball team, and over 100 trying out for the 2 cricket teams.	We will continue to enter competitions, as entering and being competitive raises our children's standards as they are being challenged.
